FW986 DAKOTA COMPOSITE SAFETY BOOT (TC340)

CONFORMITIES/STANDARDS

EN ISO 20345:2011 S3 SRC

DESCRIPTION

• DAKOTA COMPOSITE SAFETY BOOT (TC340) It has a 100% non metallic construction and features a roomy, fibreglass toecap and composite midsole which allows the foot the flex and move freely. Dakota was originally developed for airside and underground works and has a technical, uniform styled design. The outsole complex is a dual density PU nitrile rubber outsole which gives abrasion resistance whilst providing exceptional shock absorption and weight reduction. All day comfort comes from an Activ-Step® PU anti-fatigue comfort footbed. Conforms to: EN ISO 20345:2011 S3 SRC
