

PRODUCT NAME

SS705CM

KEY FEATURES

- Water Resistant Upper
- 100% Non-Metallic
- Durable Dual Density Outsole
- Padded Tongue & Collar

ITEM DESCRIPTION

The Airside SS705CM is a lightweight, 100% non-metallic safety shoe designed for use in security-restricted environments. Made from black full grain leather with a water-resistant finish, it combines durability with a smart, professional look. A padded collar and tongue enhance comfort throughout the day, while the non-metallic toe cap and midsole provide dependable protection without setting off security scanners. With a dual-density polyurethane outsole and anti-static properties, the SS705CM is the perfect choice for metal-free workplace safety.
